## Three Groups Enjoy Outing At Grayling Winter Park

### Two Detroit, One Alpena Here Week End

Three different groups swelled the attendance at the Grayling Winter Sports Park over the week end. Two of the groups were from Detroit and the other was from Alpena.

Here from Detroit was a group of 133 young people from the "Voice of Christian Youth" who arrived on the early Saturday morning train and departed for Detroit on the midnight A-Detroit Girl Scout troop numbering nearly twenty arrived in Grayling on the week end ski bus Friday evening and spent until late Sunday.

Twenty more teenagers from the Alpena Methodist Youth Fellowship arrived in cars on Saturday and spent until Sunday.

These three groups along with the usual number of winter enthusiasts made a good week end at the park despite inclement weather. Skiing, tobogganing and skating proved quite good Saturday but deteriorated on Sunday under a rain.

### "VOICE OF CHRISTIAN YOUTH ALSO PICK WINTER QUEEN"

The Shoppengons Inn was the scene of much activity this past week end—133 young people from Detroit arrived on the early morning train Saturday. They were the "Voice of Christian Youth" group representing seventeen teenagers from Detroit. Mr. Ed T. Darling is their director and with Mrs. Darling accompanied the group.

The group was served breakfast at Shoppengons Inn and then boarded trucks for the ride to the Grayling Winter Sports Park. Mr. Ed T. Darling was in charge of transportation.

They were served lunch at the park and then brought back to the inn, where a fine turkey dinner was served.

After dinner the dining room was cleared and the group enjoyed a lovely musical program. Mr. Gordon Small entertained with the accordion. Mr. Gary Moore, vocalist, rendered several beautiful numbers. Miss Margaret Fraser secretary of the club sang duets with Mr. Moore.

During the dinner hour, the group selected a winter week end queen and she was presented and crowned during the evening program. Their queen was Miss Fat

After a fine day in Grayling and at the park the group boarded the midnight train for their return trip to Detroit.

Those who were privileged to see the group loading or unloading at or at the inn were reminded of the old snow train days.

We think it is a fine credit to some of the local people to handle a group of this type. It was an

### P. T. A. Observes 58th Birthday

To consolidate the scattered ideals of individuals into one mass working unit to bring out an understanding between people and to foster that understanding; to insure the future of the world in the only possible way—through our children; these have been the aims of the National Congress of Parents and Teachers since its birth 58 years ago, February 17th (Founder's Day).

Everywhere is a time for re-assertion of principles and looking back to the beginning. In the case of P. T. A. the beginning was one woman, Alice McLellan Eirney, who alone conceived an organization of mothers working along with the teacher for the betterment of the child's world. She said then as she would say today, "The republic's greatest work is to save the children." Since 1897, this has been the motto of P. T. A. It has kept it's head in times of hysteria and where ever local members gave it support, it has proved itself a fine and willing bulwark.

Girl Scout Troop, 904, of Detroit arrived on the week end ski bus Friday night, seventeen girls and sponsors in number. They spent the week end at Shoppengons Inn and enjoyed the facilities of the Grayling Park all day Saturday and at Skyline on Sunday. Saturday evening the group enjoyed a beautiful turkey dinner at Herrn's House of Fine Food. They left on the ski bus Sunday night reporting that they had enjoyed a wonderful time in Grayling and expressed a desire to return to Grayling to camp over the week end.

The girls thought that Skyline was beautiful but they also loved the Grayling Park.

It is a pleasure to have such fine groups visit Grayling and go back with such happy memories.

## Kiwanis Club Notes

Ed Reisig of West Branch, area scout executive and Clarence Roberts of Grayling who has been serving as director of an older group of Grayling Boy Scouts were the speakers at Monday night's meeting of the Kiwanis Club of Grayling. They were introduced by Club President Leslie Hunter.

Mr. Reisig pointed out that Scouting is a program of three phases: Cub Scouts, Boy Scouts and Explorer Scouts. The Cub program is for boys from 8 to 11 years of age with the regular Cub Scouts program taking in boys from Cub age up to 13 with the older group going into Explorers.

At the present time a group of six older scouts have been working this winter with Mr. Roberts as explorers but are still attached to the Scout Troop. A separate explorer post in Grayling is the aim with its four fold program of social, outdoor, vocational, and service. Mr. Reisig told the club that the six explorers have built their own tents and most all have finished park packs this winter it was said. They have been on fishing and hunting trips unaided and with guidance, and have had two dances.

They plan a four day canoe trip this spring with river canoe trip their goal. They will spend three days on the Main-Stream and on one the South Branch. Mr. Roberts said. He also said that three more boys were expected into the club program in a month.

The Kiwanis Club of Grayling unanimously voted to be the sponsoring group for the new post, thus providing in Grayling all three phases of scouting to boys.

### World Day of Prayer

An annual observance begun in 1887 by Presbyterian women for united prayer for their home missionaries, followed in the '90's by a day appointed by Baptist women to pray for foreign missions; was combined in 1914. In 1949, the women of Canada joined American women in observing the first Friday in Lent as a day of prayer for all missions, both home and foreign. The observance spread through one land after another until, in 1923, it became a World Day of Prayer. Last year this day was observed in more than 10,000 American communities, and in 119 countries around the world.

World Day of Prayer will be observed at Michelson Memorial Church at 2:30 P. M. on Friday, February 25th. An offering will be collected at this meeting which will be sent directly to the United Church Women in the name of all the churches participating in this observance, which is open to all Christians of the community.

## EASY DOES IT

MAKE a wonderfully tasty garnish for lamb or ham by stuffing cored apples with mashed, seasoned sweet potatoes. Bake the apples around the roast from 30 to 40 minutes until the fruit is tender.

Add a dash of curry powder to beef gravy and heat leftover pieces of beef roast in it. Serve over a bed of rice which has been buttered and mixed with slices of parsley.

Deviled eggs on cruettes are a tempting dish for luncheon or Sunday night supper. Devil the eggs in your favorite fashion, place in a buttered casserole and cover with medium white sauce, grated American cheese and buttered crumbs. Heat through in a moderate oven.

Mince green onions or scallions and parsley added to melted butter give wonderful flavor to broiled chicken, steaks or chops. A good topping for broiled fish uses 1 cup mayonnaise, 3 tablespoons vinegar, 1 teaspoon Worcestershire sauce, 2 teaspoons pickle relish and 1/4 cup chopped ripe olives. Broil a minute or two, until the topping is browned slightly.

## SPORTS CORNER

COME-BACK HERO... Milwaukee Braves pitcher Jim Wilson, 33, was named "most courageous athlete of 1954" by Philadelphia sports writers. Despite fractured skull in 1945 and leg broken in six places in 1947, Wilson had 5.4 earned last year, with 4 shutouts and one no-bitter.

### This an' That

Red Marion, new manager of the Louisville Colonels, is a brother to baseball shortstop Marty Marion... Sugar Ray Robinson, grossed more than \$3,000,000 as a fighter, now is virtually broke. He once drove flamingo-pink Cadillac, even took nine friends along just for company on a tour to Europe. "Goal tending" in basketball is the act of tending the ball on its downward flight to the basket, any way that affects the flight of the ball into the basket. While illegal in basketball, goal tending is allowed in such games as hockey, where the goal tender is allowed a free hand and may deflect the puck into or away from the goal... England recently retained the Ashes, symbol of the world cricket championship, by defeating Australia... Referee Max Schaefer was a marked man while officiating a basketball game between Western Michigan and Marshall. Schaefer forgot to bring along his black and white striped shirt. Western Michigan lent him one, boldly marked "Properties of Western Michigan."

## Michigan's Resorts And Lakes Are Truly In Big Business Category

Michigan's Resorts on the lake-shores and northern playlands are big business.

From the dune and beaches in the west to the lakes and resorts up both sides of the state and through the upper peninsula, the industry is keeping a steady grip on Michigan's economy.

State officials came upon proof in a new set of sales tax figures. Robert J. Furlong, executive secretary of the Michigan Tourist Council compared January to July sales tax revenue from northern counties to show the impact of the vacation.

"Some show increases of nearly 300 per cent and others well over 200 per cent in the July over January comparison," he said.

The figures also dramatized the up and down economy of northern counties.

During January last year total sales receipts for the 50 counties deemed to be northern were \$1,832,398 while the same counties turned in \$2,912,478 during July—an increase of 58.9 per cent.

When certain vacation-favorite counties are studied individually, the percentage increases are phenomenal," he said.

Senator Elmer R. Porter (R, Blissfield), chairman of the Senate appropriations committee, is a farmer and proud of it.

He has turned over some time consuming duties to younger hands now and devotes most of his time to keeping the state's budget as near a balance as possible.

But, the Senator tends a gigantic garden during the summer months and is a gladiolus farmer of more than a little talent.

Last year, he said he discovered a new kind of tomato with a shape something like a football which grows large and lush and contains less acid than others. He said.

"It doesn't seem like much to do, but I just want to keep busy."

Highways, which everyone from the experts to the motorist believe could stand some improvement, are popping up as one of the major issues of the 1955 legislative session.

What to do about them—a job estimated to cost upwards from \$500,000,000 to \$7,000,000,000—is the key to the controversy.

Opposing camps are taking shape over the pay-as-you-ride proposals and the bond issue plans, which call for long-range borrowing of the money and repaying it by increasing taxes.

One law enforcement officer in the northern part of the state had his answer ready.

"Sure it's illegal, but it's popular and it's not hurting anybody."

## PET PEEVE

RECENTLY there has been in the news much about the proposed building of a "space platform" or man-made satellite which would be suspended in space thousands of miles above the earth. Science says it can be done, although it would take years, and cost even more money than there is in Fort Knox. The supposed purpose of the satellite would be to provide a "jumping off" place for man's conquest of outer space. Some of our best scientists disagree on whether or not the space platform should be attempted. If it will do any good, I offer my vote and state now that I am not at all in favor. Through the years our scientists and inventors have come up with some wonderful things—things which have made living as we know it today something of an art. We can get a machine or gadget that will perform any required task—even to scratching the back. The fly in the ointment is there because science, while giving us all these wonderful things, also came up with a couple of bombs (atomic and hydrogen) that are capable of blowing us and all these wonderful gadgets clear up to the moon. Now they want to make it worse by discovering what sort of life we'll have on the moon even before we get there. I just don't believe I care to know what sort of life if any exists on the moon. If we go too far we may discover that it is populated by a race of ugly cannibals. Then think how difficult it would be for any Tom, Dick or Harry to get his gal to wax romantic by looking upon such a horrible spectacle.

## Brotherhood Week

Nation wide observance of Brotherhood Week, sponsored by the National Conference of Christians and Jews, will be held February 20-27. President Dwight D. Eisenhower is honorary chairman of the observance. Ben Duffy, President, Batten, Barton, Durstine and Osborne, Inc., is general chairman.

The 1955 theme is "One Nation Under God."

Special events in more than 10,000 communities throughout the United States will mark Brotherhood Week. Educational institutions, religious and civic organizations will participate. Programs will extend the work of the National Conference which stimulates year-around programs in schools and colleges, churches and synagogues, labor-management and community organizations, and in newspapers, magazines, motion pictures, radio and television.

The purposes of Brotherhood Week, according to Dr. Everett R. Clinchy, president of the National Conference, are to give people an opportunity to re-dedicate themselves as individuals to the ideals of respect for people and human rights. "We try to dramatize the practical things that people can do to promote an understanding and realization of those ideals. Brotherhood Week is essentially a campaign against the prejudices and bigotries that disfigure and distort religious, business, social and political relations."

An inventory of the nation's moral and spiritual resources for brotherhood is being undertaken by the National Conference as one of its main tasks during the current year.

The big promotion during Brotherhood Week, according to Dr. Clinchy, will be to urge people to do more than give the principles of brotherhood mere lip service. "By getting to know the other fellow, the one who has a different creed, race or national origin than yours, by understanding his viewpoint, his ambitions and goals, you will find old prejudices disappear. You'll find that we are all one family made strong and

THAT'S EVER THUS!

great by the very differences that so many times divide us as individuals and groups. You'll learn to adopt or reject a person strictly on his merits as a human being and not because he happens to be different from you."

"We hope that during Brotherhood Week people will get together with people they know, people they don't know, and with people they wish to know, in the informality of their own homes. By planning simple discussions about the meaning of brotherhood, and what it means in their own lives, they can contribute to the real spirit of Brotherhood Week."

### HOTTEST BUICK IN HISTORY

No wonder you see so many 1955 Buicks on the highways. They're rolling so fast they're faster than ever before in history—topping the popularity that has already made Buick one of the "Big Three" in total sales.

This is for sure...

There's never been anything in your car-driving experience like the feel of Buick's new Variable Pitch Dynaflo—because there's never been anything like it in a car before.

In a modern plane, yes. For this is the principle of variable pitch propellers used on airplanes. Their propeller blades change "pitch" for quick take-off—then change to another "pitch" for better gas mileage in cruising aloft.

Now you can do the same thing on the ground—in a 1955 Buick.

Twenty propeller blades have been ingeniously engineered into the Dynaflo unit. They pivot—one way for a big boost in gas mileage while cruising—another way for brilliant new performance.

You switch the pitch for instantaneous

acceleration just by pressing the pedal way down. Then it happens...

A build-up of momentum as smooth as oil—and as quick as a split second. Dazzling new response on getaway—or a spectacular burst of instant safety-surge power when you need it out on a highway.

It's pure thrill—and a happy surprise in its far better gas mileage in cruising. Yet Variable Pitch Dynaflo costs not a penny more than earlier versions of this wonder drive.

How about you trying it?

That way you can also look into the sizzling new horsepower, the fresh new styling, the envied even-level ride, the eye-opening low prices—all of which are making the 1955 Buick the hottest seller in all history. Come in this week, won't you?

\*Dynaflo Drive is standard on Roadmaster, optional on extra cost on other Series.

## "I REMEMBER"

BY THE OLD TIMERS

From Mrs. Lottie May Greyfogel, Upton, Wyoming: I remember when we came to Wyoming 68 years ago Buffalo Gap, S. D. was then the end of the railroad. When there we came in covered wagons and hitched our horses to the place now Sundance, Wyoming about 150 miles from Buffalo Gap. It took us about three days to make the trip.

Several times we had to pass long freight outfits of oxen drawn wagons, which sometimes took several hours. We had to find a fairly level stretch of ground to go around them as they could not turn out.

We can still hear those old bull whacks, as they were called, rattling and clanging as their oxen they never rode in the wagons but walked along beside the poor drivers punching and jabbing and cursing and cracking those old bull whips which we could often hear long before we saw them.

From Mrs. Earl M. Gosssett, Val-Jello, California: I remember when an automobile looked like a form of transportation, not something ready to "take off" from your driveway. I am thinking of our garage will be built like hangars too. Ah, the good old days, when you could tell if a "machine" was coming or going.

Mrs. Frederick Filer

Dearborn housewife

says, "Hospital bills don't cost us borrowed money now!"

"It's the most wonderful feeling when you don't have to borrow money to pay hospital and doctor bills," says Mrs. Filer. "That's the way it is with us, now that we've got Blue Cross - Blue Shield. When I had to be in the hospital for forty-nine days... just the hospital bill was around \$1,000! We were completely covered under our Blue Cross Comprehensive Contract. In addition to that, Blue Shield paid \$137 for medical services I needed. There weren't any forms to fill out, and we didn't have to wait for any payments. Everything happened automatically!"

What if this were your year, to have a hospital bill? There's a 2 in 3 chance that it will be! Wouldn't you and your family be a lot better off if you had protection like the kind that saved over \$1,100 for Mrs. Filer?

Join the over 2 million Michigan people who have Blue Cross - Blue Shield. Find out how you can get low-cost group coverage for hospital and doctor bills. A company with as few as 5 employees may qualify as a group. Today, call or write: Blue Cross - Blue Shield.

No gasoline-no, not a single one-has higher octane than

**New 1955 GULF NO-NOX**

but octane alone is not enough... New No-Nox burns clean!

Only a gasoline that burns clean can make its full octane power really work for you. Instead of trying to fight harmful deposits with so-called "miracle additives" inside your engine—Gulf believes in preventing them from forming in the first place; removes the cause—the "dirty-burning tail-end" of gasoline—at the refinery.

The plates in the photo show what a difference Gulf super-refining makes!

and clean-burning No-Nox gives your engine...

more complete protection!

Gulf treats new NO-NOX to protect every part it touches against harmful deposits.

See for yourself! Compare clean piston "A" from engine using new NO-NOX with piston "B" from engine using the "dirty-burning tail-end" of gasoline that Gulf refines out. Both pistons, ran the same number of hours under the same conditions.

Fill up with new Super-Refined Gulf NO-NOX and feel the difference, right from the start, in full engine power that lasts. You'll get:

- More complete engine protection than with so-called "miracle-additive" gasolines.
- Extra gas mileage in the short-trip, stop-and-go driving motorists do most.
- Stall-proof smoothness... instant starts
- fast-fuel-saving warm-up
- No knock, no pre-ignition—even in today's high-compression engines.

It's super-refined...to burn clean!  
The '55 gasoline for all high-compression engines

GULF'S PLEDGE to the motoring public

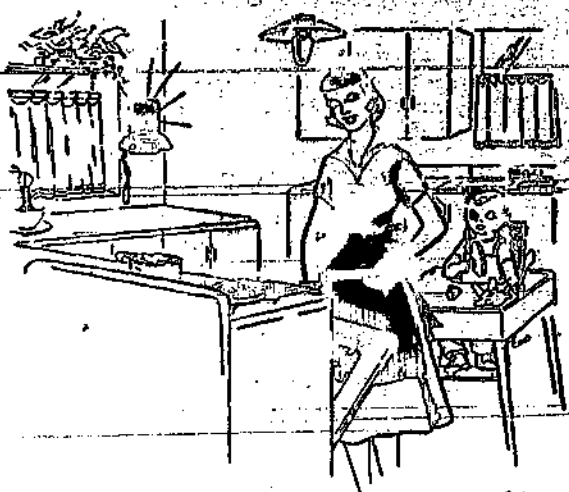

- We at Gulf make this promise to America's motorists. We will not permit a single competitor—not a single one—to offer a gasoline superior to our own superb No-Nox.
- It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say we will keep it the best—in power, in performance, in engine protection.
- This is not a boast, not a claim. It is a pledge to you, the motoring public—a pledge backed by all the resources—and the integrity—of the Gulf Refining Company.

## WASHINGTON AND "SMALL BUSINESS"

Readers ask: Just how real is international conspiracy threat? Is situation over-magnified?

Unfortunate situation in which international relations are extremely critical.

Kronin is quarters of spy agency. Kronin is in headquarters of known enemy.

Equally dangerous in un- seen—spy headquarters in all world capitals including Washington.

Unlabeled ambition, this conspiracy aims at destruction of U.S.

Over 20 years ago Douglas MacArthur stated U.S. is a vast storehouse any nation would like to plunder. Many feel it tragic talents of this outstanding patriot-realist are now unused.

As previously reported, nationwide membership of National Federation of Independent Business recently voted to favoring law requiring all treaties and foreign agreements be approved by both Senate and House.

This sentiment even expressed that incorporated in Bricker Amendment before Congress again. Last year, despite fact 85 Senators co-sponsored Bricker Amendment, it was defeated by White House pressure via Congressional strategy of parliamentary procedure.

Few people realize Article VI of U.S. Constitution provides and treaty becomes law of the land, superseding even state or local law.

In April, 1933, John Foster Dulles warned, "Congressional action is the only way to prevent the National Federation of Independent Business

laws are invalid if they do not conform to the Constitution, whereas every law can override the Constitution. Treating for example, can take powers away from Congress and give them to the President; they can take powers from the States and give them to the Federal government or to some international body; and they can cut across the rights given the people by the Constitutional Bill of Rights."

Since then Dulles became Secretary of State and has failed to further sound treaty.

It is also significant courts have held secret agreements such as Yalta and Potsdam have full effect of treaties, even though they are secret.

Yet in March of last year United Nations Human Rights Convention voted not to recognize as a fundamental human right the right to own property. Various divisions of U.N. and International Labor Organization have drafted some 200 treaties which would rob U.S. citizens of freedom of speech, press, education, of private enterprise, other Constitutional guarantees.

Thus socialistic schemers are plotting under banners of World Federalist, Atlantic Unionists, the Worldists, etc., etc., to take the U.S. apart. Their intentions are known. This other group of international conspirators can win without firing a shot.

This explains forthcoming Congressional battle to pass Bricker Amendment or legislation along lines voted by nation's independent businessmen. The objective will be to insure the never again can a small group in the executive branch of government sign away nation's hard won freedoms. The outcome of this battle will be every bit as decisive as was the battle of Yorktown.

By LYN CONNELLY

THE record business was rocked back on its heels by the impact of the song "Let Me Go-Lover" of the dramatic television show, "Studio One." But the record ing world quickly righted itself and major firms all over the nation were soon rushing releases by their own artists. A record had been made especially for the show and was featured five times during the hour drama. A sensational demand for the disc followed the program. Meanwhile, it made a star of 18-year-old John Weber, an unknown male singer, who was chosen by Columbia Records to make the original waxing for the TV show.

With a voice that recalled the late John McCormack, Father Syd. MacEwan of Scotland, toured the United States recently. The white-haired 45-year-old priest sang the old favorites to capacity audiences. Obtained in 1944, Webster was not content singing part-time, touring abroad and appearing on television. His records have sold over a million and will soon be released in this country by MGM. With the proceeds from his singing, the priest has helped to rebuild his parish church in Argyll, Scotland, and has contributed to hospitals.

PEATTIE CHAPTER

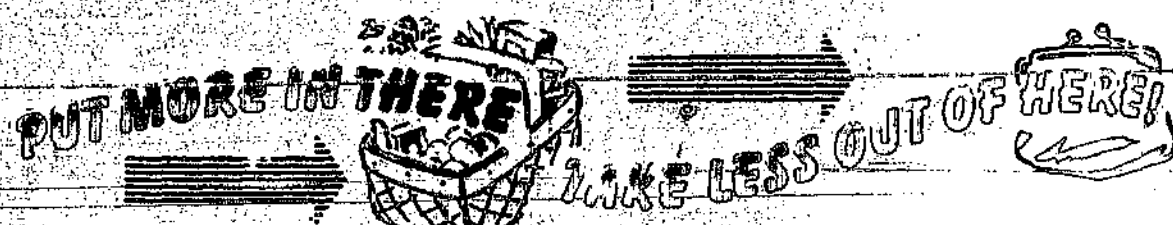

COLUMBIA—Rosemary Clooney and her famous hubby, Jess. Barker, seem to be making recording together a habit. Their latest is a tune from their movie, "The Rombert Story," called "Mr. and Mrs. . . ." It's backed by another father-made song for the disc, "Marry the Man." Not married, but a favorite singing team, Frankie Laine and Jo Stafford, come up with a disc that is destined for the top in our opinion. It's called, "High Society" and it has all the Laine-Stafford bounce to mark it a favorite. Reverse has "Back Where I Belong."
